

Our Sales Philosophy

<http://www.5starhomes.com>

We are not looking to just sell you a house... our goal is to find you the perfect home. To that end, we will ask you pertinent questions and really listen to your answers. Once we've pinpointed and truly understand what you have in mind, we can get to work on targeting the ideal model, neighborhood and price range for you and your family. Not sure what you want? That's okay too! We can show you many examples of other projects we have done that may just inspire you!

We have many in-park, "turn-key" models to choose from, as well as, scores of available open spaces for custom homes. We always have a full compliment of resales (used homes) that may be ideal for your circumstances as well. Our sales philosophy is actually pretty simple; It's all about You!
